

Last Updated: 24.02.2016
Product Code: SOL100GE

SAROL 100GE is formulated for the lubrication of a wide variety of textile machinery including gears and gearbox applications.

APPLICATION

Use as received for the lubrication of textile machinery including gears and gearboxes where a scourable, emulsifiable lubricant is specified.

BENEFITS

- Scourable properties ensure easy removal from yarns and fabric.
- Formulated with the addition of industrial EP properties to provide excellent oxidation and wear resistance in gears and gearbox applications.
- Excellent lubricity and stability promotes suitability for a wide range of uses.

TYPICAL PROPERTIES

Colour & Appearance:	Amber liquid
Density @ 20°C:	0.900 kg/m ³
Closed Flash Point (°C):	>200
Kinematic Viscosity @ 40°C:	90 – 110 cSt
Solubility in water:	Emulsifies readily

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
