

SYNGEAR PLUS 75w90 is a full synthetic transmission oil formulated to provide enhanced levels of protection and fuel economy when compared to standard mineral oil based grades.

APPLICATION

Primarily for use in passenger car and light commercial transmissions, it is also suitable for heavy duty commercial vehicles gearboxes and axles where an API GL-4 or API GL-5 oil of this specification is required.

BENEFITS

- Special frictional properties assist in improving resistance to power loss
- Increased synchromesh compatibility promotes easier gearshift especially in colder conditions
- Enhances fuel economy
- Long drain capability
- High oxidation resistance for longer product life

PRODUCT SPECIFICATION

- API GL-4 / GL-5

TYPICAL PROPERTIES

Density @ 15.6°C:	0.860
Viscosity @ 100°C (cSt):	14.3

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
