

FOOD GRADE SILICONE

Food Grade Silicone Spray is a clean non-toxic colourless, Category H1 NSF Registered Lubricant formulated using only FDA listed ingredients, with wide temperature stability. Its low surface tension gives good adhesion and durability and will resist oxidation and corrosion, designed to give light lubrication in the food industry leaving a water repellent film. Category H1 Registered for use on all food processing equipment and machine parts in locations where there is a potential exposure of the lubricated part to food. Suitable for use in all Food Plants, Meat Plants, Dairies, Bakeries, Canneries, Breweries, Bottling Plants, Vending Machines and all Food Product Delivery Vehicles. Free from Lead, Animal Fats and is formulated in compliance with FDA, Title 21, Section 178.3570.

- Colourless - Non Toxic.
- Resists Oxidation and Corrosion.
- Water Repellent.
- Temperature Range -50°C to +250°C.
- Good Electrical Resistance.
