CLASSIC SAE 40

Last Updated: 09.01.2025
Product Code: AE0054

CLASSIC SAE 40 is a high quality, monograde non-detergent oils primarily for pre-1950 veteran, vintage and classic engines which require this type of oil.

APPLICATION

Designed for engines without modern filtration systems where a non-detergent lubricant is specified, and formulated to protect period seal and gasket materials. Primarily for use in pre-1950 car, motorcycle and light commercial 4 stroke engines, both petrol and diesel, but can also be used in period gearboxes where an API GL-1 gear oil is required.

Note: these non-detergent formulations are not suitable for use in many automotive engines built after 1951 – use in more modern engines may cause unsatisfactory performance or possible equipment harm – please check compatibility before use.

BENEFITS

- Formulated with mildly enhanced anti-wear technology for added engine protection.
- Incorporates excellent corrosion resistance to protect engine internals and components.
- Enhanced anti-oxidant performance to prolong fluid life and minimize oil consumption.

PERFORMANCE PROFILE

Suitable for use where the following specifications are required;

API SA, SB

API CA

API GL-2

TYPICAL PROPERTIES

Specific Gravity @ 15.6°C	0.893
Kinematic Viscosity @ 100°C (cSt)	14.0
Flash Point COC (°C)	231
Pour Point (°C)	-15

HEALTH & SAFETY

Please refer to the Safety Data Sheet, freely available, for product handling and disposal advice. Please note that the SDS includes handling, storage, health and disposal information which should be passed on to anyone else who comes in contact with our product. Additional advice can also be obtained from your local representative.

NOTE: Read and understand all precautions on container labels before using this product.
