DUST SUPPRESSANT OIL

Last Updated: 09.01.2025
Product Code: I00811

DUST SUPPRESSANT OIL is a highly refined mineral oil combined with selected additves to aid the suppression of dust particles in a wide range of manufacturing processes and atmospheres.

APPLICATION

Use as received in a wide range of applications where a non-additive mineral oil is required.

When sprayed it is also suitable for use as an effective dust suppressant.

N.B.– although not inherently hazardous, the use of good industrial practice regarding personal protection to limit exposure is recommended when used for this purpose.

BENEFITS

- Excellent lubricity properties make it suitable for a wide range of uses
- The product has excellent stability over long periods of application and will not polymerize
- Capable of blending easily with additives if required
- Can be used as an excellent solvent oil Contains high performance surfactants Utilises Group V synthetic base stocks

TYPICAL PROPERTIES

Colour & Appearance	Pale, clear liquid
Density @ 15.6°C	0.853
Closed Flash Point	150°C
Kinematic Viscosity @ 40°C	3.5 – 4.5 cSt
