MULTILUBE SP 220

Last Updated: 09.01.2025
Product Code: ML0220SP

MULTILUBE SP 220 is a premium quality, ashless lubricant formulated to meet the requirements of slideway, hydraulic systems, industrial gearboxes and general lubrication applications, and where one oil is required as a multifunctional lubricant.

The advanced formulation offers significant advantages in demulsification performance over traditional multifunctional lubricating oil products, especially when coming into contact with metalworking emulsions. In total loss lubrication systems, the products accelerated demulsification performance enables free oil to be removed easily from the surface of the emulsion, extending sump or system life.

APPLICATION

Use as received for applications where a zinc-free, multifunctional lubricant in an ISO 220 viscosity is required, and/or to meet the specifications listed below.

BENEFITS

- Multifunctional performance to help reduce lubricant inventories.
- Excellent anti-wear performance.
- Prevents any stick / slip on slideways.
- Elevated corrosion resistance protects machine tools from rust.
- Outstanding cutting fluid compatibility with excellent demulsifying capabilities.

TYPICAL PROPERTIES

Viscocity @ 40°C	198-242
Specific Gravity @15.6°C	0.886

HEALTH & SAFETY

Please refer to the Safety Data Sheet, freely available, for product handling and disposal advice. Please note that the SDS includes handling, storage, health and disposal information which should be passed on to anyone else who comes in contact with our product. Additional advice can also be obtained from your local representative.

NOTE: Read and understand all precautions on container labels before using this product.
