POLAR FREEZE 7 HYBRID-NF 50/50 ANTIFREEZE

Last Updated: 14.09.2026
Product Code: AF0964

POLAR FREEZE 7 HYBRID-NF 50/50 GREEN ANTIFREEZE is an ethylene glycol-based engine coolant formulated in a ready to use format for optimum performance in heavy duty diesel engine applications. The modern Hybrid-OAT formulation utilises Organic Acid Inhibitor Technology and is free from nitrites, amines, phosphates.

APPLICATION

Use as received in coolant systems of heavy commercial vehicles as well as off-highway plant, but also suitable for light duty use where this specification of coolant is required. The inhibitor technology in combination with borate and silicate provide excellent corrosion protection in all applications, and superior silicate stabilization eliminates the potential for silicate gel formation.

BENEFITS

- Designed to protects from frost damage down to -40°C.
- Exceptional corrosion protection giving extended life of up to 5 years.
- Free from nitrites, amines, and phosphates in accordance with many OEM requirements.

PERFORMANCE PROFILE

Suitable for use where the following standards and specifications are required:-
• Appearance: Blue/Green Colour
• BS 6580:2010
• ASTM D4985, D3306, D6210
• AFNOR NF R15-601
• SAE J 1034
• Chrysler MS-7170
• Cummins 85T8-2
• Deutz DQC CA-14
• FORD ESD-M97B49-A
• Iveco Standard 18-1830
• MB 325.00
• MAN 324 Typ NF
• SCANIA LLC TB1451
• VAG G11, TL 774-C
• Suitable for use where G48 specification fluid is required.

TYPICAL PROPERTIES

Appearance | Green Colour

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Safety Data Sheet is available on request. Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
