PRESSFORM 920P

Last Updated: 09.01.2025
Product Code: MW0920

PRESSFORM 920P is a premium-quality, water-soluble metal-forming fluid with the addition of a multi-metal passivator package.

APPLICATION

Forms a stable translucent brown emulsion. Formulated primarily for use on Hatebur machines for cold forging intricate components in difficult bronze and gun metals. The addition of the multi-metal passivator technology is designed to protect against leaching of zinc, aluminium and copper compounds.

NB: Add the concentrate as received to water and agitate to ensure thorough mixture.

BENEFITS

- Odourless formulation for operator acceptability.
- Formulated to protect against leaching of zinc, aluminium and copper compounds.
- Excellent lubricity.
- Nitrite free and phenol free
- Can be used on ferrous and non-ferrous metals.
- Biocide pack ensures protection from bacteria.
- Formulated for use at between 10% and 30%.

TYPICAL PROPERTIES

Appearance	Clear brown liquid
Odour	Mild
Specific Gravity	0.950
Viscosity @ 40°C	155 cSt
Flashpoint	> 150°C

HEALTH & SAFETY, STORAGE AND DISPOSAL

Please refer to the Safety Data Sheet, freely available, for product handling and disposal advice. Please note that the SDS includes handling, storage, health and disposal information which should be passed on to anyone else who comes in contact with our product. Additional advice can also be obtained from your local representative.

NOTE: Read and understand all precautions on container labels before using this product.
