WHITE BRAKE GREASE

Last Updated: 09.01.2025
Product Code: GR0906

WHITE BRAKE GREASE is a premium quality, water-resistant, NLGI 2 grease designed for use where exceptional corrosion protection and performance is required.

APPLICATION

Designed primarily to protect and lubricate brake backing plates and piston housings. Its exceptional properties make it also ideal for marine and industrial applications where high levels of lubricating performance and corrosion protection are specified to combat wet or humid environments. Special additive technology provides additional protection and lubrication where excessive levels of water are prevalent, such as in water pumping equipment. It is also suitable for marine use as Stern Tube grease, and is compatible for use with both plain and anti-friction bearings.

Please check compatibility before application and use in accordance with equipment manufacturers recommendations.

BENEFITS

- Exceptionally high level of water resistance
- Excellent corrosion protection even in the most humid of environments
- Good sealing properties

TYPICAL PROPERTIES

Appearance	Off-white smooth grease
NLGI classification	2
Base Oil	Highly refined mineral oil
Thickener	Calcium 12 hydroxy stearate
Zinc oxide content	5%
Operating temperature range	-20°C to + 110°C

Water washout (ASTM D1264)

– @38°C	2%
– @79°C	5%
Dropping point (IP132)	+ 140°C min

HEALTH & SAFETY

Please refer to the Safety Data Sheet, freely available, for product handling and disposal advice. Please note that the SDS includes handling, storage, health and disposal information which should be passed on to anyone else who comes in contact with our product. Additional advice can also be obtained from your local representative.

NOTE: Read and understand all precautions on container labels before using this product.
