

EXTREMECUT is a hand applied reaming, tapping and drilling lubricant.

APPLICATION

Usually applied by the use of squeeze or dripping bottle.

BENEFITS

- Based on highly effective extreme pressure and lubricity additives to promote ease of cutting and prolong tool life
- Effective on high alloy steels and can be used on all non-ferrous metals
- Optimum consistency so that the lubricant clings to the metal surface, even on the highest speed applications.

TYPICAL PROPERTIES

Appearance:	Brown viscous fluid
Specific Gravity @ 15°C:	1.14 – 1.18
Viscosity @ 40°C:	170 – 200 cSt

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
