Product Code: CM0093

MIXER MOULD OIL is a high quality blend of solvent refined mineral oil and specialist release agent additives designed for use as a mould release agent and also for pre-treatment and cleaning of concrete/cement mixing equipment.

APPLICATION

Promotes excellent mould release, and is ideal for the pre-treatment and cleaning of all types of concrete/cement mixing equipment. Suitable for application by spray, roller or brush, and compatible with most mould materials.

Please check compatibility before application and use in accordance with equipment manufacturers recommendations.

BENEFITS

- Suitable for use on most surfaces including metals, sealed wood, fiberglass, plastics etc.
- Provides good surface finish together with excellent mould release properties.
- Exceptional performance characteristics prevent bonding and facilitate easier clean up when used in mixing equipment.
- Easy application by spray, roller or brush.

TYPICAL PROPERTIES

Appearance:	Amber fluid
Viscosity @40°C:	4.8 cSt
Specific gravity @15.6°C:	0.8322
Flash Point (COC) :	>62°C

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
