

Last Updated: 23.07.2014

Product Code: IQ0032

QUENCHING OIL Q32 is a highly refined, low viscosity, low sulphur content general purpose quenching oil

APPLICATION

Use as received. Ensures excellent quenching characteristics whilst providing good oxidation stability, low volatility and low drag-out losses. Optimum operating bath temperatures 25 – 80°C.

BENEFITS

- Formulated with highly refined base oils.
- Low sulphur content.
- Reduced oxidation levels.

TYPICAL PROPERTIES

	Q32
Kinematic Viscosity @ 40°C (mm ² /s)	28.8 – 35.2
Kinematic Viscosity @ 100°C (mm ² /s)	5.3
Specific Gravity @ 15.6°C	0.875
Flash Point (PMCC) °C	178 min.
Pour Point °C	-12

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
