

Last Updated: 27 September 2007
Product Code: MW0177

SARCUT CAS 22 is a cutting oil formulated for use in a range of machining operations where a neat oil is required.

APPLICATION

Use as received for broaching, tapping and threading, gear cutting, turning and thread rolling.

BENEFITS

- Good metal working properties and enhanced lubrication
- Chlorine and sulphur promotes performance in arduous machining
- Excellent workpiece visibility due to light colour

TYPICAL PROPERTIES

Colour:	Amber
Specific Gravity @ 15.6°C:	0.890 – 0.900
Kinematic Viscosity @ 40°C:	19.9 – 22.4
Sulphur:	Yes
Chlorine:	Yes

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
