

SAROL 150E is a general purpose textile machine lubricant manufactured from a blend of solvent-refined mineral oils and non-ionic emulsifiers.

APPLICATION

Use as a general purpose textile machinery lubricant where scourability is required in a product of ISO 150 viscosity.

BENEFITS

- Scourable properties ensure easy removal from yarns and fabric.
- Formulated with the addition of EP properties to provide excellent oxidation and wear resistance.
- Excellent lubricity and stability promotes suitability for a wide range of uses.

TYPICAL PROPERTIES

Colour & Appearance:	Pale Amber liquid
Density @ 15.6 ⁰ C:	0.899 kg/m ³
Cloud Point (⁰ C):	>70
Kinematic Viscosity @ 40 ⁰ C:	135 – 165 cSt
Solubility in water:	Emulsifies readily

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
