

SAROL 22 is a highly refined, solvent neutral, paraffinic mineral oil.

APPLICATION

Use as received where a non-additive mineral oil is required.

BENEFITS

- SAROL 22 has excellent lubricity and a wide range of uses
- The product has excellent stability over long periods of application and will not polymerize
- Will blend easily with additives if required

TYPICAL PROPERTIES

Colour & Appearance:	Pale straw coloured, clear liquid
Density @ 20°C:	0.863 kg/m ³
Closed Flash Point (°C):	170
Pour Point (°C):	-15
Kinematic Viscosity @ 40°C:	19.8 – 24.2 cSt
Kinematic Viscosity @ 100°C:	4 cSt

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
