

Last Updated: 06.11.2006
Product Code: IH0638; IH 0586

SARTHERM AO32 & AO46 are low viscosity oils for use in modern heat transfer systems.

APPLICATION

Suitable for heat transfer systems working in a temperature range of 10°C to 315°C.

BENEFITS

- Excellent thermal oxidation and stability
- Reduction of sludge in operation
- Protection against corrosion
- Wide temperature operating range

TYPICAL PROPERTIES

	ISO 32	ISO 46
Viscosity @ 40°C	30.4 cSt	44.5 cSt
Viscosity @ 100°C	5.28 cSt	7.9 cSt
Pour Point	-33°C	-30°C
Flashpoint (COC)	212°C	220°C

HEALTH & SAFETY

This product has been manufactured to the highest standards and when used for the purpose recommended is unlikely to present any significant health hazards. A Material Safety Data Sheet is available.

Indicated data are approximate values and are subject to the usual commercial fluctuations. All information correct at time of going to press to the best of our knowledge. This information may be subject to change without notification due to continual product research and development.
